Professional Summary

Full-Stack Developer with experience delivering production web applications using **Next.js, TypeScript, and modern backend architectures**. Contributed to **20+ deployed projects**, ranging from marketing platforms to interactive web applications. Experienced in building **full-stack systems including authentication, admin dashboards, API integrations, and deployment pipelines**. Focused on performance optimization, scalable architecture, and maintainable codebases.

Work Experience

Glitch LLC - Full-Stack Developer

(March 2025 – Present)

- Developed and deployed **20+ production web applications and marketing platforms** using Next.js, TypeScript, React, and MongoDB, supporting large-scale campaigns **used by thousands of users.**
- Built interactive campaign experiences including **quizzes, branded content platforms, and interactive landing pages**
- Implemented **scalable component architectures and performance optimizations** improving loading speed and responsiveness across **high-traffic campaign platforms.**
- Collaborated with designers and product managers to translate UI concepts into maintainable production code

DevsData LLC – Frontend Developer

(October 2024 – June 2025)

- Developed and maintained **WordPress-based production websites using PHP, JavaScript, HTML, and CSS**, implementing custom functionality and integrations.
- Worked with **PHP backend logic and REST APIs** to support dynamic content and platform features.
- Deployed and maintained applications using **Docker-based container environments** and built **Python automation scripts** for backend workflows and content processing pipelines.
- Improved website **Lighthouse score from ~60 to 90+** by optimizing rendering, asset loading, responsiveness, and SEO.

Iberieli LLC – Frontend Developer

(December 2023 – May 2024)

- Designed and developed a **custom business website from concept to deployment**, working directly with company leadership
- Implemented **responsive layouts and cross-browser compatibility** for modern user experience
- Managed **domain configuration and deployment infrastructure**

Projects

Spot The Ball - Interactive prize game platform *(June 2025 – December 2025)*

- Developed a **Canvas-based interactive game interface** where users guess the hidden ball location to win real prizes, implementing gameplay tools such as magnifier zoom and dynamic line drawing.
- Built **event-driven gameplay logic** integrating with backend APIs to load user tickets, manage event participation, and dynamically configure prizes and images per event.
- Implemented **state management and internationalization**, enabling gameplay progress tracking and seamless language switching between English and Georgian.

Anuka.live – Musician platform with admin dashboard *(Feb 2025 – May 2025)*

- Designed and developed a **full-stack website and content management admin panel** using **Next.js, React, Prisma, and authentication with bcrypt**
- Built an **admin interface allowing non-technical users to manage site content dynamically**
- Managed **domain configuration and deployment infrastructure**
- Implemented scalable database models for content updates and media management

Geowonder.tours – A website for the Georgian tourism agency *(Jun 2025 – Sep 2025)*

- Developed a **full-stack tourism platform** using Next.js and React for showcasing travel experiences
- Designed UI/UX for showcasing travel experiences and destinations
- Implemented **content management functionality for tour updates and marketing pages**
- Managed domain setup and production deployment

Technical Skills

- **Frontend:** React, Next.js (App Router), TypeScript, SCSS, Canvas API
- **Backend:** Node.js, PHP, REST APIs, Prisma ORM, Authentication
- **Databases:** PostgreSQL, MongoDB, SQL
- **DevOps & Tools:** Docker, Git, GitHub/GitLab, Vercel, Netlify
- **Engineering Concepts:** Component architecture, API design, responsive design, SEO

Education

Kutaisi International University

Bachelor's in Computer Science, Minor in Management (2022 – 2026, Ongoing)

Languages

English – C1

Georgian - Native
